

Additional 100% Pure Essential Oils

In order to bring you the greatest variety of 100% pure essential oils, we have added these more difficult to locate pure oils to our inventory. It is important to remember that pure essential oils need to be properly diluted before use and that some may irritate the skin. They are not for internal use and must be kept out of the reach of children. As with any alternative product, if pregnant, suffering from any medical condition, or taking medication, consult a health care practitioner before use. Avoid putting oils in direct sunlight. When using these oils for aromatherapy, remember to use mostly water in the aromalamp and add only a couple of drops of the essential oil. Please note that essential oil prices constantly fluctuate depending on the market availability. If the current price is over \$1 more than is listed, you will be contacted to confirm the new price before processing your purchase.

SAFETY DATA LEGEND			
Use with Caution when one of the following applies:			
E	Epileptic	SI	Skin Irritant (dilute well before using)
HBP	High Blood Pressure	SI*	EXTREME Skin Irritant
S	Sun Exposure	P	Pregnancy

These are all available in 1/3 ounce amber bottles with a fitted dropper insert in place, unless noted. They have tamper-evident, child-proof lids. (Please use the safety data which we have included as a starting point for your personal research before use.)
