

## CANDLES

Vibrant solid color candles form the basis for a variety of personal rituals. From a focus for meditation to candle spells, these non-scented candles are perfect for your creative work. As with all candles, remember to remove all labels before lighting. Never leave a burning candle unattended. Keep away from children and pets. Do not burn near draperies or other items that might catch fire. Always put candles in a secure candleholder before lighting them. Keep burning candles out of drafts that would cause them to drip excessively. Provide protection under the candle to catch any wax that does drip. When putting out your candle, use a candlesnuffer. Do not blow out candles, metaphysically this puts your breath across your intent limiting the effectiveness of your work.

#### CANDLES IN GLASS, 50 HOUR

These candles are poured into a clear glass container that is 3 3/4" high x 2" wide. Like a votive, as the candle burns the wax in the container dissipates, leaving an empty glass. The burn time is approximately 50 hours. Please note, as with any candle in glass be sure to burn the candle so that there is a complete layer of liquid wax floating in the candle with each burning. Burning for too short a time will "tunnel" the wick, which will eventually lead to it being covered by liquid wax in future burnings. These candles are available in 6 colors:

Black	Red
Blue	White
Green	Yellow

#### "SEVEN DAY" CANDLES IN GLASS

Please note, as with any candle in glass be sure to burn the candle so that there is a complete layer of liquid wax floating in the candle with each burning. Burning for too short a time will "tunnel" the wick, which will eventually lead to it being covered by liquid wax in future burnings. They are available in the following colors:

Black	Pink
