Astrology & the Chakras w/Bill

The inter-dimensional energy vortices known as chakras have come into the western mindset over the last 160 years, and are reclaiming their place when it comes to healing and overall energetic health. An age old body of knowledge, it can be worked with energetically to achieve maximum results, both proactively and retroactively. Astrology can be used to connect not only the human body with the macrocosm, but it can also tell us when good times exist to maximize chakra work. In this class, we will look at the correlations between the two systems, and how to use astrology to increase chakra work to greater ends. **7-9 pm, \$25**

There are times when the energies of the Pentagrams and Hexagrams to clear the vibrations of the lower astral levels are exactly what's needed. An explanation of the “what's”, “how's”, “when's” and “why's” provide clear information necessary for anyone to effectively begin using these powerful techniques to clear out unwanted, displaced or negative energies. Handouts will be provided and participants will be guided through the actual Banishings. **7-9 pm. \$35. Class size limited, must pre-register**

What is Hermeticism? w/Bill

Hermeticism is a long standing western world spiritual system that is also known as ‘The Royal Art.’ It has been used by advisors to rulers for centuries, and can trace its roots back to ancient Egypt. While modern Hermeticism encompasses more than it has in the past, there are strong roots in certain areas of metaphysics and magick that give us insight into not only our

past as a spiritual species, but also into ourselves. Hermeticism can also provide structure to work within without being too restrictive, which can be of strong value when one is coalescing their spiritual paradigm. In this introductory class the arts of Hermeticism will be addressed, both historical and contemporarily, and a clear understanding of what is and what isn't Hermeticism will also be addressed. There is no prerequisite for this class. **2 hours 7- 9 pm, \$25**

Tuesday, April 19 & 26

Thelema, a two part series w/Bill

The spiritual system of Thelema is one of the newest, most popular, and effective systems of magick out there today. Extended and codified by Aleister Crowley, this spiritual development system is one of the most interesting forms of the Western Esoteric Tradition that is out there. In this two part class, we will look at the pantheon and cosmology that is associated with it, as well as key rituals and beliefs having to do with rituals. Class one will be the cosmology and the pantheon, and class two will focus primarily on the key and unique rituals that are found in Thelema. **7 – 9 pm, \$25**

7- 9 pm, \$25

NEW! Tuesday, April 18

Meet Your Primary Guides w/Bill!

We've all heard about guides, and usually this encompasses everything from people to animals. While there are many books available on the subject, there is still something to be gained from interaction with people that share this interest. In this class we will discuss the history of spirit guides and look at the different roles of guides that we all have. We will also embark on a guided meditation to make contact with our primary spirit guides, and will discuss their placements and roles. **7 – 9 pm, \$25**

Tuesday, April 25

Come to the Council Fire: Self Love”

Sometimes in order to move forward, we must first work on the self- self-healing through self-love. It's often one of the more difficult -and the most rewarding- challenges we can face. There are those who have a handle on self-love and what it truly means- if you do, this class is not for you; it is, however for those who are truly “**working on their shit**”- not just working on their path. This is not a quick fix, but it can be a transformative tool to assisting you to being the best magickal being that you can be (and already are!). **Tuesday, March 28, 6:30-8:30 pm, \$25**
