Astral Projection, a primer w/Bill

One of the more common concepts in the western esoteric tradition is that of astral projection. However, it is nebulous in a lot of ways, and a lot of misunderstandings have led to a lot of erroneous data available. Part of this has to do with understanding the astral plane. In this class, we will look at the astral plane, the basics of astral projection, the alchemical imagination, and techniques to use to achieve success. This class is two hours long, has no prerequisites, and handouts will be provided. **11am – 1pm, \$25**
