Mastering Mindfulness w/ Rev William

Do you find meditation difficult because your mind is too busy thinking about things? Do you have a gift you wish you could develop? -Dreams that predict the future? – Hearing the dead speak?- Spirit guide nudges that you wish you could really understand? Would you like to improve your memory? Do you desire a clearer understanding of your purpose in life? **Mindful** means using your **whole** mind. Magick 101 w/Bill

What is magick? What is magic? Reading the word conjures many different images to mind, and brings many questions to the surface. When starting out on the magical path, one may feel lost or clouded in what to consider is important and what is not. This confusion can lead to innumerable circumstances that can be avoided. In this class, we will discuss what magick and magic are, what they entail, and why we should consider working with them. **6:30-8:30, \$25**

Astral Projection, a primer w/Bill

One of the more common concepts in the western esoteric tradition is that of astral projection. However, it is nebulous in a lot of ways, and a lot of misunderstandings have led to a lot of erroneous data available. Part of this has to do with understanding the astral plane. In this class, we will look at the astral plane, the basics of astral projection, the alchemical imagination, and techniques to use to achieve success. This class is two hours long, has no prerequisites, and handouts will be provided. **11am – 1pm, \$25**

Tuesday, September 17

Astrological Life Cycles w/Bill

We are all born. We all go through individual life experiences. However, what if I told you that there are underpinning patterns in the stars that we could learn to understand, thus easing this journey called life. Would you be interested? This class looks at the cycles everyone goes through, astrologically, for the entirety of one's life. **6:30-8:30 pm, \$25**
